

Forest 3900 Chair

Forest 3900 Plush

The 3900 Plush upholstery is designed with features ideal for any practice. Wide at the elbow and tapering in directly at the shoulder, the chair's backrest allows for close access to the patient while accommodating people of all sizes. Patients will enjoy the comfort of ample lumbar support, high-quality foam and standard glove-soft Ultraleather™ upholstery.

Forest 3900 Memory Comfort

The Memory Comfort upholstery option is an exceptional selection for long procedures or for those who are especially concerned with the patient experience. Simply stated, this upgrade makes it the most comfortable patient chair available today. With an unprecedented three inches of Aerus memory foam layered atop a five inch base of high density foam, Forest's Memory Comfort offers support where it's needed most, particularly the lumbar area. Patients will enjoy pillow-like comfort comparable to the finest luxury memory foam mattress. Opt for the Soft-touch Massage and Knee Pillow—your patients won't stop talking about his or her dental experience, a very powerful marketing tool indeed.

Forest 3900 Narrow Back With or Without Slings

If you need more space when working around the patient, the 3900 Narrow Back—with or without slings—is a smart choice. The optional slings lend a feeling of extra support to patients of any size, especially children. They also provide a contact barrier between you and your patient to help them feel relaxed and at ease. The 3900 slings are enhanced with a unique stiffening web at the elbow to prevent collapsing. The Narrow Back chair, with or without slings, could be the upholstery alternative that best suits your needs.

Every Detail Done Well

Affordable Excellence signifies Forest's commitment to providing the same quality of material and workmanship as the big name brands for less. We use the highest quality bearings, hydraulics, surface treatments and electronics available, while placing an even greater focus on gaps, tolerances, fit and finish than our competition.
