

Still Using Film - Why?

Save Big When You Switch to ScanX

Find out how much your Practice could save with ScanX

ROI TAKEAWAYS COMPARED TO FILM*

50 X-Rays a Day
\$1,450
savings per month

100 X-Rays a Day
\$2,840
savings per month

ScanX could save a practice more than
\$34,000
savings per year

- Compatible with most dental imaging and practice management systems
- Save time on development with virtually no learning curve
- Eliminate costly chemicals and disposable film and improve staff production
- ScanX's thin, wireless, flexible PSPs are preferred by patients
- If you are already using sensors, ScanX can be used as your backup for patients with gag reflexes, small mouths and large tori

Trade in your film processor, old scanner or sensor for a New ScanX System and receive:**
